### Amendments to the Claims

Please amend the claims, without prejudice, as showing in the following listing of claims.

This listing of claims will replace all prior claim amendments and listings of claims in the application.

### Listing of Claims

1. (Currently amended) A computer code embodied on a computer readable medium for a customer-centric restaurant communication system, comprising:  
  
a code segment that provides a user interface that allows a restaurant diner to order food and drinks without interaction with a human server;  
  
a code segment that provides a virtual server as part of the user interface, for assisting the restaurant diner with the user interface, wherein the virtual server is an animated figure that emulates human personality traits, wherein the virtual server teaches the restaurant diner how to operate the restaurant communication system, and wherein the virtual server suggestively sells the food and the drinks to the restaurant diner;  
  
a code segment that provides bill payment functionality to allow the restaurant diner to pay for the food and drinks with cash, a check, credit card, or a gift certificate; and  
  
a code segment that provides entertainment services to occupy the attention of the restaurant diner.
